EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jonathan Spadt on January 4, 2005.

The application has been amended as follows:

After the last line of page 9, the following paragraph was inserted:

---A method of treating an aneurysm with a stent-graft can be performed which involves determining the length of the aneurysm, determining the diameter of the vessel into which the stent-graft will be placed, providing a stent-graft having a dilation restriction means for restricting dilation of the stent-graft beyond a maximum diameter where the maximum diameter is greater than the vessel diameter of the vessel, and trimming the stent-graft to a length that is greater than the length of the aneurysm when the stent-graft is dilated to its maximum diameter.---

The following is an examiner's statement of reasons for allowance:

An appeal conference was held on January 4, 2005 with supervisory patent examiner Angela Sykes, supervisory patent examiner Corrine McDermott, and primary examiner Paul Prebilic. Both supervisory patent examiners agreed with the position of the Applicant's Representative in the Appeal Brief filed October 7, 2004. They reasoned that it would have been inherent to over-design the stent-graft of Applicant to

have a maximum diameter well beyond the diameter of both the inner and outer vessel diameter as required by claim 1. They thought that the language of claim 1 should be inserted into the specification so as to give claim 1 clear antecedent basis from the written specification.

Upon a further review of the prior art of record and some additional searching, the Examiner concluded that the claimed invention was patentable thereover.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Paul B. Prebilic whose telephone number is (571) 272-4758. He can normally be reached on 6:30-5:00 M-Th.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, McDermott Corrine can be reached on 571-272-4754. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
